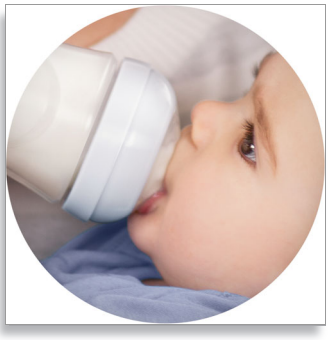
Highlights

Natural latch on

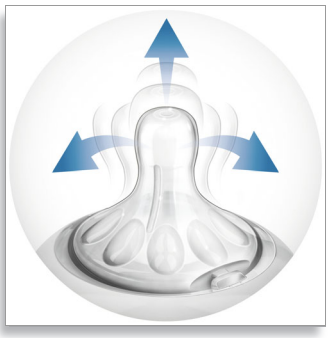


The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Advanced anti-colic system

Innovative twin valve design reduces colic and discomfort by venting air into the bottle and not baby's tummy.

Unique comfort petals



Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

BPA free*

This nipple is made from silicone - a BPA-free* material

Different flow rates

Philips AVENT offers four different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. Philips AVENT offers the newborn flow nipple with 1 hole (0M+), the slow flow nipple with 2 holes (1M+), the medium flow nipple with 3 holes (3M+) and the fast flow nipple with 4 holes (6M+). All nipples are available in twin packs.
